Cynthia and I celebrated our 33<sup>rd</sup> wedding anniversary at a beach-front restaurant in Paradise Cove, Malibu. After a delicious breakfast, an enjoyable walk on the beach among some of Earth’s geologic delights, and thrilling to the beauty of the tumbling surf and sand, we had a much needed nap. A perfect day!

We know that many of you are concerned about Dianne and Richard Rubenstein who recently moved to the Big Island of Hawaii where the volcano is presently erupting. Dianne wrote us a wonderful email in response to our email to her:

Aloha Dear Friends,

Thank you for your inquiry and we will continue to find comfort in knowing that you are praying for our community and our island as in truth these volcanic eruptions are in fact as bad as they look on the news. The local Hawaiians are amazing in their response to all of this destruction. They do not believe it is Pele's wrath that is creating the destruction but that she is just doing (her job) what she is supposed to be doing.....and that is, creating and forming her beloved island.

Everything is good with us as we are 20 miles from Kilauea and the fissures. We also have the trade winds in our favor so there is no danger of sulfur dioxide poisoning.

...The next time you see any of our Fellowship family please tell them I miss them and that I think of them often.

*Sending the Spirit of The Aloha and  
luminous light your way.....

Cynthia and I are doing the preliminary editing of the Fellowship’s next book, ***Mysteries of the Life of Jesus***. \$1500 is needed for the cover design, formal formatting and editing expenses. The book consists of interesting channelings from Mary, the Mother of Jesus; Joseph, His “father;” Joseph of Arimathea; Caiaphas; Jesus, Judas; Peter; and Pontius Pilate. There are also questions and answers and it has its controversial elements(!).

Our publisher advised us to protect the Fellowship copyright and trademark by hiring an attorney specializing in publishing and intellectual property. He is also an expert on publishing and industry matters. We expect his fee to be \$450. We are very grateful for all of you who are providing recurring monthly donations that greatly help us meet these expenses.

The ***Portals to Your Three Selves*** webinar is an ongoing project. We are exploring ways to use a PowerPoint presentation for all of our Explorers of Consciousness members and friends to introduce the important principles of the Fellowship’s teachings and to provide support.

In keeping with our June Native American wisdom, these ten ancestral teachings that follow are a roadmap for living a balanced and fulfilling life as we walk in beauty on our Earth Mother. The power of these ancient pillars of existence is that they always remain relevant, regardless of how evolved or learned we think we've become.

## **10 Ancestral Teachings**

- 1) The Earth is our Mother, care for her.
- 2) Honor your ancestors through your actions.
- 3) Open your heart and soul to the Great Spirit.
- 4) All life is sacred; treat all beings with respect.
- 5) Take from the Earth what is needed and nothing more.
- 6) Put the good of all before your own interests.
- 7) Give constant thanks for each new day.
- 8) Speak the truth; but only of good in others.
- 9) Follow the rhythms of nature; rise and retire with the sun.
- 10) Enjoy life's journey, but leave no tracks.

They seem so simple right? But somehow these core concepts are easy to forget or take for granted when life gets challenging. I've come across this list of ten before, but as I read through it again I was struck by one item in particular that really hit home. Today it was number 9, but who knows what it'll be next time!

I hope you too find benefit in these native commandments.
