

## **Insight *OUT*** **by Bill Miller**

September has been a challenging month for the Millers health-wise.

On Tuesday, September 12, 2017, my wife, Cynthia, rushed me to the Kaiser Permanente Hospital emergency room due to severe pain from my inguinal hernia. Fortunately, with the help of “tapping” (EFT) and prayer/visualization on the way, the pain radically decreased. At the hospital, the doctor was able to reposition the hernia, and I was released after a few hours. I have scheduled an appointment with a surgeon for surgery on the afternoon of October 20, 2017.

On September 24, 2017, my wife, Cynthia, had dental surgery, which was very successful. We are both so grateful for positive outcomes and appreciate your prayers very much.

It looks like Halloween has come early to the Fellowship. Just when we thought we were wrapping up our ***Portals*** book for publication, we encountered strange blocks in the editing and publishing software – deleted paragraphs, misspelled words where these were perfect in the document previously sent. With a lot of prayer and hard work, we have corrected them and hopefully have the problems figured out. God-willing, we are about to move forward with the book’s publication. (YAY!!)

On September 15, 2017, Diane and Allan Eisenman hosted a magnificent luncheon for Dianne and Richard Rubenstein/Atwell at the Athenaeum, the Cal Tech Faculty Club in Pasadena.

Dianne and Richard have been pillars, friends and Angels of the Fellowship for many years. Since the late 1960’s, Dianne’s parents, Bill and Bea Rubenstein, founding members and ministers, dedicated their lives to supporting the work of the Fellowship. Their home was truly a center of light and love, and many joyful classes, dinners and healing events occurred there.

Dianne and Richard have just moved to Hilo, Hawaii to fulfill their dreams of living, loving, and enjoying a new home on the island. We miss them already, and wish them Health, Happiness, and Prosperity!

Our founders, Drs. Bella Karish and Wayne Guthrie often reminded us, “Keep your head in the sky and your feet on the ground,” and use our Mantra Prayer and Light Attunement to balance yourself and others. Pray, pray, pray... for yourselves, our Planet and all of its people.
