Celebrating our 58th Year!

NOVEMBER 2018

World Prayer Bulletin #507

Dear Friend and Light Worker,

In this intense time of the transformation of our planet, let us empower ourselves and the Forces of Light to create a New Earth filled with the grace of our Blessed Creator. This affirmation may be repeated daily to accomplish this goal: “With grateful hearts, we hold and energize the vision of a healthy Earth with pristine air, lands, and waters; with peaceful, joyous peoples—fulfilled, self-empowered, loving, and grateful—who live in an abundance of vibrant health, happiness, prosperity, and all good things, and who hold and energize an ever-evolving higher spiritual vision.”

PLEASE PLACE THE FOLLOWING INTO PRAYER, ADDING OTHERS OF YOUR CHOICE:

- We pray that all candidates for local, state, and national office, all ballot measures, and political ads in the Mid-Term elections be placed into Light for the greatest good of our nation and the world.
- We pray for the most benevolent outcomes in all coming changes, especially social, economic, political, environmental, health, education, 3-D printing, communication, food, agriculture, monetary exchange, energy production, all areas involved with Artificial Intelligence and genetic therapy and editing, use of resources, and all forms of transportation—including autonomous and fossil-fuel-free cars.
- We pray that the Angels of Peace and Compassion assist all people in all nations on our planet in every activity, especially where there are conflicts, disasters, and disruptions, helping those who are stressed, homeless and without food, clean water, shelter, and medical care to be stabilized and secure.
- We pray that GESARA (Global Economic Security and Reformation Act) and NESARA (National Economic/Stability Reformation Act) produce the most benevolent outcomes for our nation and humanity.
- We pray that changes to the Affordable Care Act (ACA) and Tax Reform Act benefit all our people.
- We pray that all criminal acts based on computer technology, including identity theft and theft of business proprietary secrets, the release of malicious computer viruses, misappropriations of funds via wire transfer, and all fraud be completely eliminated.
- We pray that all false flag events and the detrimental effects of 5G technology be canceled.
- We pray that the consciousness of humanity be raised to accept all religions and ethnic groups without prejudice or judgment.
- We pray that the infrastructure of our state and nation—including roads, bridges, tunnels, dams, waterways, and communication and transportation systems—be made safe and secure.
- We pray that genocide, apartheid, violations of human rights, and terrorism on our planet be eliminated and replaced with the liberating recognition of our oneness.
- We pray that the issues of border security and immigration reform be rightfully resolved without hatred or prejudice or judgment.
- We pray that the escalating number of fires, droughts, tornadoes, floods, earthquakes, and other extreme weather patterns be minimized or eliminated through Light and prayer.
- We pray that all forms of viral, bacterial, fungal, super-bug infections, and epidemic and pandemic illnesses be eliminated and that people’s vibratory energy be raised to strengthen their immunity to all disease.
- We pray that as we experience daily events that may be beyond our comprehension, we remember to center ourselves in our Heart Chakras in Light and Love.

We thank you for your prayers and financial support, and pray that you, our Fellowship family and friends, be kept within special healing and security in body, mind, and Spirit.

We ask that God’s Will be done in regard to all situations mentioned above, and those added. We pray for rightful action and the highest good of all concerned in all situations, giving thanks to our Father-Mother God for help and continued guidance.

William Miller, D.D., President
